MEND THE MIND

MIND MOVES® - AN AMAZING ADVENTURE FOR TEACHERS WITH 6+ YEARS EXPERIENCE

Become an
**Advanced
Mind Moves
Instructor**

AND DISCOVER HOW TO MASTER THE SECRET FORMULA FOR SUCCESSFULLY REMOVING LEARNING BARRIERS

What if slow learners could become star pupils?

With the scientifically-developed Mind Moves, they can! This course teaches you everything you need to know to make it happen. The **Advanced Mind Moves Instructor** course from the **Mind Moves Institute** reveals the recipe.

Based on documented evidence, **Mind Moves is the thinking person's answer to today's learning challenges.**

Now there's no reason to watch helplessly when kids struggle and seem unable to grasp, process and apply information at the same rate as others.

Because YOU CAN make a difference in their lives!

It's time you learned Mind Moves - a proven system for finding the cause of learning problems and eliminating it by means of specific, simple-to-use Mind Moves exercises, while strengthening pupils' learning abilities.

FUN MEETS FANTASTIC

Join the Mind Moves Institute on an eye-popping excursion into the intriguing world of neuroscience and techniques for optimal brain-body development, presented in a way that makes complex topics easy to understand and digest. By the end of the course you'll know why Mind Moves is a valid solution.

Make no mistake, the **Advanced Mind Moves Instructor** course is hands-on in every way. You'll be fully involved in this life-changing journey as you practically apply each skill you learn. And, yes - there will be assignments.

With this breaking-barriers-to-learning system at your disposal - and a formal certification of competence to your credit - you'll enjoy a new direction in your career that's both rewarding and fulfilling. You'll see intelligent kids push through the barriers that held them back, caused them frustration and needlessly lowered their self-esteem. Even challenges like ADD, ADHD and dyslexia can be countered with the correct application of recommended Mind Moves exercises.

Plus, you can turn your new skills into your own full-time private practice under the guidance of the Mind Moves Institute.

DID YOU KNOW?

Your school can also sponsor you, allowing their staff, parents and children to experience the benefits of Mind Moves under your instruction.

SO WHAT IS MIND MOVES?

Mind Moves is a complete system, found to create measurable improvement in those who find learning difficult. It consists of:

- The extensive research and resulting body of knowledge, guiding principles, and standards of practice created by Dr Melodie de Jager.
- **Mind Dynamix** - a unique system of biofeedback profiling that reveals a child's neurological strengths, challenges and learning preferences.
- **Mind Moves** - a set of scientifically-developed neurophysical exercises engineered to stimulate development and learning in pupils and successfully remove barriers to learning. Mind Moves are easy, fun and can be performed in class as a group or on-to-one at home.

Mind Moves is great for kids young to old, and for the teachers who want to make a difference to their lives

MEET MELODIE

The Mind Moves Institute was founded by Dr Melodie de Jager D.Phil (RAU) - Developmental Specialist, educator, keynote speaker and author.

Melodie always says: *"There's no such thing as a dumb child, only inadequate methods."* That's why she's spent her entire career researching whole-brain functioning and devising cutting-edge tools that put kids back in charge of their bodies and minds, and unleash their full potential.

Her unwavering passion has led her to launch several institutes both locally and abroad, all to realise her desire to see every child excel. It's impossible to deal with Melodie's work without 'feeling' and being inspired by her infectious enthusiasm.

And that's exactly what you'll experience when you attend the Advanced Mind Moves Instructor course.

WHAT'S YOUR NEXT MOVE?

The Advanced Mind Moves Instructor course is the unique opportunity to become involved in a vibrant culture of dynamic achievement and extend the boundaries of your professional teaching capabilities.

Most of all, it's the chance to make a difference in the lives of children.
